WASHINGTON- Today Congressman Terry (R-NE) announced that Eppley Airfield in Omaha, Nebraska has received a $3.1 million grant from the U.S. Department of Transportation. The money will be used for reconstruction of a taxiway that is 40 years old.

"The Omaha Airport is a vital component of Nebraska's transportation network and its economy. Improvements to the airport's infrastructure will enable the airport to continue to provide the superb service it is known for," said Congressman Terry.
