WASHINGTON- Congressman Lee Terry (R-NE) wants to remind constituents his office has a satellite location once a month in North Omaha. The third Thursday of the month is set aside for residents to visit with a Congressional staff member about questions or concerns they have on federal issues like Social Security and Medicare. The satellite date for this month is Thursday, April 17th from 2-6pm at the Lake Point Building at 24th/Lake in Omaha.

"Being accessible to the constituents of the 2nd Congressional District is my top priority. I want people to know that my staff and I are always here to help," said Congressman Terry.
