

WASHINGTON- Today Congressman Terry (R-NE) voted against the Emergency Economic Stabilization Act of 2008, H.R. 3997. The bill failed on a vote of 205-228.

**"The magnitude of increasing federal bureaucracy with \$700 billion of taxpayer money is not a decision to be made so quickly. I truly believe there are other options including using the private market that should be thoughtfully considered by Congress. I look forward to continuing work in a timely fashion on this critical matter," said Congressman Terry.**
