

Today Congressman Lee Terry (R-NE) spoke on the House Floor in opposition to H.R. 6515, the Drill Responsibly in Leased Lands Act of 2008. This bill does not open up any new drilling and makes it more difficult to drill in areas already designated for drilling. Congressman Terry has proposed an 'American Made Energy' plan that includes expanding alternative sources of energy, drilling and conservation which will make our country energy independent.
